

Dardan Iseni

Software Engineer | Master's in
Computer Science - Data Science

Personal details

-  Dardan Iseni
-  Tetovo - North Macedonia
-  [linkedin.com/in/dardan-iseni-a4a012198](https://www.linkedin.com/in/dardan-iseni-a4a012198)

Skills

- Java
- Spring Boot
- Hibernate
- React.js
- Node.js
- Python (Programming Language)
- Flask
- JavaScript
- Typescript
- C#
- .NET Core
- PostgreSQL
- Amazon Web Services (AWS)
- Software Development
- Docker

Profile

I'm an experienced and passionate Software Developer with a strong foundation in Java, C#, and Python, building solutions using frameworks like Spring Boot, .NET Core, Flask, Node.js, and React. I also have experience working with AWS to create cloud-based applications. Currently, I'm on my master's degree in Data Science, where I'm focusing into fine-tuning large language models and leveraging data-driven approaches to solve real-world problems.

Education

- Master's degree, Computer Science - Data Science** Oct 2023 - Jun 2024
South East European University (SEEU)
- Bachelor's degree, Computer Science** Jan 2019 - Dec 2023
South East European University (SEEU)
- Computer Science, Mathematics and Computer Science** Feb 2022 - Jul 2022
West University of Timisoara

Employment

- Software Engineer** Jul 2023
Verint
At Verint, I specialize in customizing Verint customer engagement products to meet diverse client needs. I excel in integrating client applications into our CaaS platform, utilizing Java Spring Boot and React. My role enhances customer experiences and drives innovation in customer engagement solutions.
- Software Engineer** Aug 2022 - Jul 2023
Inspire11
As a Software Engineer at Inspire11, I have been focused in developing cutting-edge solutions for our clients. My responsibilities include full-stack development, where I excel in both server-side and client-side development using technologies such as JavaScript, React, Java, PostgreSQL, and Docker.
- Full Stack Developer** Aug 2021 - Oct 2022
Torsten Labs
At the beginning I used to work as a Back-End Developer where main responsibilities were to develop different server-side applications from scratch for Spanish and Swiss clients, by the time I got promoted to full-stack developer being responsible for client-side as well. Technologies used: JavaScript, React, Python, Java, PostgreSQL, Docker.
- Frontend Developer** Sep 2020 - Jan 2021
Bridge Technology MK, Tetovo, Polog, North Macedonia
Maintaining client-side of an existing application with Vanilla JS and JQuery, and re-building it from scratch in VueJS
